

The background of the image is a lush, close-up photograph of Canna lily plants. The flowers are in various stages of bloom, showing bright yellow petals with white centers and prominent orange stamens. The leaves are large, dark green, and have a glossy texture. The overall scene is vibrant and tropical.

## Best Botanical Garden

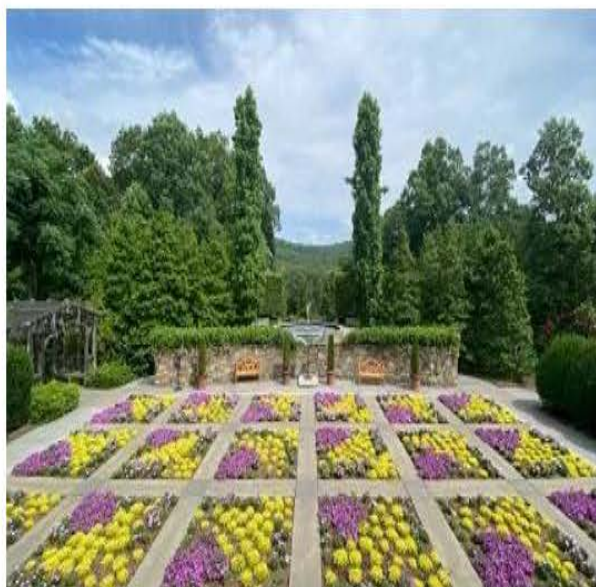

BY READERS' CHOICE ON 2/1/24 AT 12:00 PM EST

# Voted by Newsweek as the Number One Botanical Garden in the Country in 2024

SHARE      

From desert cactuses and California redwoods to Japanese cherry blossoms and bonsai trees, these botanical gardens are bursting with life, color and variety. Wander through a menagerie of indoor and outdoor installations with educational activities, rotating exhibits and special events for everyone in the family. Our experts have selected popular gardens throughout the United States that conserve diverse flora and fauna and promote sustainability practices.

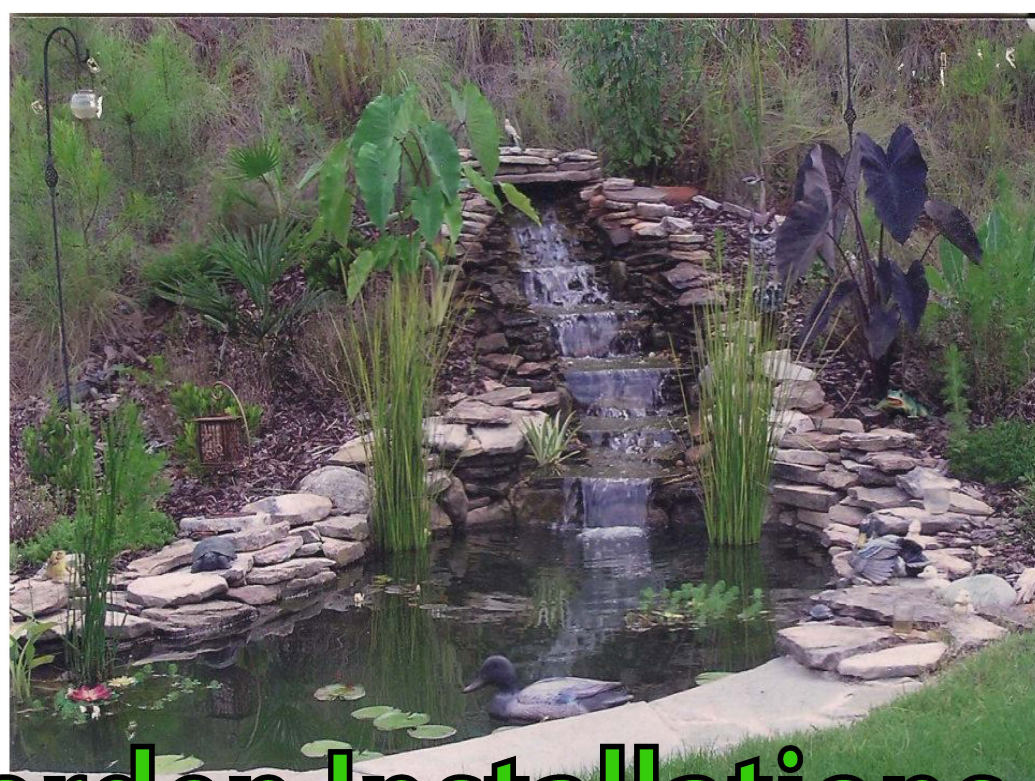

These 10 botanical gardens were selected by our expert panelists and contributors and voted on by readers as the best of the best.

### 1. The North Carolina Arboretum—Asheville, NC

Nestled in the mountains along the Blue Ridge Parkway, the North Carolina Arboretum offers stunning cultivated gardens including one of the best bonsai collections in the United States. Hiking and biking trails also dot the landscape of the 434-acre arboretum. Educational exhibits rotate throughout the year, and guided tours are offered weekly.
